Round Logo Stickers

Cookie-forward sticker concept for packaging, seals, and branded touches.

Concept Notes

Best use: round product stickers, box seals, bakery bag stickers, thank-you packaging accents.

Square Logo Stickers

Two color directions using the same clean logo layout.

Option A - Green Name / Rose Cookies

- Soft, grounded, modern feel
- Name has stronger readability
- Works well for stickers and labels

Option B - Rose Name / Taupe Cookies

- Warmer and sweeter feel
- More feminine / soft bakery tone
- Good alternate color option

Suggested meeting decision: choose one primary logo colorway and keep the other as a secondary/seasonal variation if desired.

Square 2-Sided Card

Simple branded card concept for orders, gifts, pickups, and package inserts.

Front - Logo Side

Back - Thank You Side

Notes for discussion

- Consider square cards as package inserts or customer thank-you cards.
- The front can use the chosen primary logo colorway.
- The back can keep the handwritten signature feel to make it more personal.
- Could also be printed as a small enclosure card for custom cookie orders.
